

## **Project Designer – Transportation Department**

McClelland Consulting Engineers is expanding and looking for a full-time talented civil engineer with a minimum of two years' experience as a project designer. This job operates in a professional engineering office and outdoor for site visits. We work together in a collaborative environment and understand the value that each person contributes to the success of a project. While working here you will be surrounded by positive staff and have opportunities for career advancement. The Transportation Project Designer works and reports to a supervisor or manager.

### **RESPONSIBILITIES AND DUTIES WILL INCLUDE THE FOLLOWING:**

- Designs and supervises construction projects such as transportation, road and drainage projects.
- Estimating costs, personnel and materials, preparing written communications and reports, design research and calculations, drafting and technical specifications, establishing and meeting completion dates.
- Exercising independent judgment, intuition, creativity, problem solving, planning, communicating and use of technical and analytical skills.
- As the TPD is promoted based on service, capabilities and productivity, he/she will be expected to assist in leading and directing the work of other project designers

### **REQUIREMENTS:**

- Bachelor's Degree in Civil Engineering (Required)
- Experience in HEC-RAS Modeling (Preferred)
- Ability to Operate AutoCAD Civil 3D or Microstation
- Shall have knowledge of commonly-used concepts, practices, and procedures within the field of engineering.

McClelland Consulting Engineers offers a competitive compensation and benefit package that includes: Medical, Dental, Vision, Life Insurance, STL/LTD, 401(k) Matching, Paid Holidays, Paid Sick Leave and Vacation.
